The Women’s Council
A CALL TO STAND ~ for Life

Circle Retreat 6th~8th October, 2017.
Newbold House, nr Findhorn, Scotland.

AwakeningFeminineLeaders.com

The Invitation

You’re invited to be part of an inspiring Circle of women change leaders who are dedicated to creating a new future for our world.

The Women’s Council is hosted by Joey Walters, founder of Awakening Feminine Leaders, in collaboration with TARA Approach founder Dr. Stephanie Mines; movement therapist Deborah Jay-Lewin; Scottish novelist Margaret Elphinstone; singer/songwriter Eleanor Brown and more, all of whom are co-participating.

"How can we embrace our feminine wisdom and co-create a new culture of care for ourselves and our world?"

At the heart of this Circle Retreat is a Wisdom Council; a deep inquiry and sacredly held space to tap into our collective wisdom and power as women. The practice of the Wisdom Council is rooted in ancient Earth Wisdom Teachings and nature-based Circle principles that will guide our inquiry. We’ll explore the most essential personal and collective questions we are holding about our role as feminine leaders in creating a cultural shift that breathes feminine consciousness and balance into our world.

The purpose of the Council is not just to begin to answer these questions, but to empower every woman to become the answer.

Whether you are aspiring to lead or being called into the next expression of your feminine leadership, this Council is a opportunity for you to:

- Deepen confidence in your authentic voice, your Soul gift and your courage to step forward with your Call To Stand.

- Recognise the collective shadows and limiting stories that we carry as women and tap into the collective wisdom and power to move beyond them.

- Strengthen trust in your embodied feminine wisdom and inner guidance, so you can align with your Soul’s potential and lead in a more feminine way.

- Receive resourcing and nourishment to nurture and sustain your well-being.

**Experience the power of our Collective Wisdom**

This timely gathering is a rare chance to connect with like-hearted women; coaches, artists, entrepreneurs, therapists, healers, writers and other ‘change leaders’ who are playing their part in co-creating a sustainable future for our children’s children.

Our 3 day journey will be a highly interactive and co-creative experience, sharing wisdom, healing and inspiration. Although we will hold a light design, we’ll stay open to the emergence of what is needed for the Circle and for our collective inquiry.

Our time in Council will include open dialogue, collective ritual, systemic constellating, dance, story, personal reflection/journalling time in nature and time in Circle around the Fire. We’ll also have an evening of song and dance on Saturday evening with singer song writer, Eleanor Brown performing live.

Our intention is to hold an honouring space where each woman’s experience, wisdom and contribution is valued and to co-create a nurturing field of transformation for all who participate.

**4 x Online Introductory Circles in Sept 2017.**

The Council will begin prior to the Retreat with 4 free introductory video conferences in September to build connection, share principles of the Council and support gentle preparations and intention setting for our time at Newbold House. (Replays will be available for those unable to participate.)
